

STORM IS RAGING OVER LARGE AREA

Snow Is Falling In Many Northern and Western States As Well As the Territories and the Panhandle of Texas.

The man who has been writing to his brother in law in Illinois and telling him to get away from Illinois and come to live in the balmy Panhandle sunshine had a bad attack yesterday and is still very low from the north and east tomorrow and the man's brother in law and other friends might come in for a first hand look at the Panhandle and the possibilities are that the unsophisticated snickers will think their Texas friend a bigger liar than he used to be. Anyhow they will agree with the new comers and old settlers that "this is awful."

Mr. Considine, the new weather man came around this morning to apologize and ask the editor if he really thought that a committee of citizens with a rope would be around for him this evening.

The following data furnished by Mr. Considine, given some interesting particulars about the storm:

Weather Notes.
The high pressure area on Saturday and Sunday occupied a position that divided the low area in two, one centering over Minnesota and the second over New Mexico and Texas. Thus the region of the Panhandle received the brunt of the storm on Sunday. The present snowstorm will probably end tonight or early Tuesday morning, and then it is possible the temperature will fall to about 10 degrees or below.

The lowest temperature during the past 24 hours was 17 degrees, and the snowfall to 10 a. m. was 9.3 inches with drifts ranging from two to five feet.

The maximum wind was 31 miles from the north.

A much severer snowstorm than this one is of record at this station and occurred in February 1903, when the snowfall ranged as follows: February 24, 6.5; 25, 10 and 26, 2 inches respectively.

Only One Train Today.

Only one train could make its way into Amarillo today. The north bound Denver due here at 11:55 bucked the snow drifts successfully enough to reach here but the likelihood of its getting much further north were small. Heavy drifts in the Canadian breaks would probably

prove impassable and the foothills in New Mexico were closed for every thing without an active snow plow.

There are no snow plows in the Amarillo yards and the local train crews are powerless to deal with the situation. On the Santa Fe the nearest plows are at Woodward, O. T. and are now being pushed each way to clear the lines. The high wind drives the dry snow back into the cuts almost as soon as the plows make pathways and the plow crews will make little headway before the wind settles. There was no train either way on the Santa Fe or Pecos Valley today but the authorities hoped to have the tracks clear by tomorrow. There are plenty of train crews in forced idleness in the local yards and if plays were available the lines could be opened south in a few hours.

The same shortage of plows here has tied up the Rock Island and no train entered or left the yards today. The crews here will have to improvise some plows or wait till the trains from the east can break a way into the town. The Denver from the north was, of course, one of the first to be blocked. The division north, however, are well supplied with plows and are steadily shoving the snow out of the way.

Hurts Cattle—Helps Wheat.
The present storm will work great hardships on range cattle but will not cause any serious loss. Cattle generally are good fat and are well able to stand the storm for a few hours. The snow, for the present, covers the grass but a few hours sunshine will leave the grass bare for grazing on exposed slopes. To cattle in the open the worst suffering is likely to be caused from lack of water. Although the present storm will not of itself cause loss, it will weaken cattle and render them less able to stand severe weather later in the winter.

It is ill wind that blows nobody good though and the snow will be worth thousands of dollars to Panhandle wheat farmers. The soil will absorb nearly all the water from the present fall and with this stored moisture the 1907 crop is practically assured.

A BETTER RAILWAY SERVICE IS PROMISED

All along these lines through Kansas, Oklahoma and Texas complaints have been numerous of the inability of the roads mentioned to supply cars to handle the immense crops of wheat, cotton, corn and other produce raised the past season, raised along the lines of these roads. The news contained in the following following item, will be of interest, in that it tells of the large orders placed both of these roads, for additional rolling stock, which will better enable them to serve the patrons of the roads in this locality, and all through the territory now so short of cars.

The Joliet paper says:

"The railroads all over the country and especially in the West are preparing for more prosperity, and the large orders placed with equipment concerns for more cars, engines and general rolling stock are an item which will be of interest to shippers of the Panhandle along the lines of the Santa Fe and Rock Island road, appeared in the Joliet News of recent date, and is given below:

FILES CURED AT HOME BY NEW ABSORPTION METHOD.
If you suffer from bleeding, itching, blind or protruding piles, send me your address, and I will tell you how to cure yourself at home by the new absorption treatment, and will also send some of this home treatment

looking forward to unparalleled good times.

"According to the latest reports, the Santa Fe has in orders for \$8,000,000 worth of cars and other equipment, and the Rock Island for \$6,000,000. Four other western roads have also put in large orders for equipment, and the total cost of the same is \$61,138,000. All of the orders are to be delivered within the coming year.

"The Santa Fe purchases will be 5,200 freight cars, 100 cabooses, 75 passenger cars, 50 engines, 10 baggage cars and 5 postal cars. The Rock Island will get freight cars mostly, but also has orders for engines and coaches.

"At the annual meeting of the Roadmasters' and Maintenance of Way association, yesterday at the Sherman house, Chicago, the recommendation was made for 'better drainage, ballast from twelve to eighteen inches deep, heavier ties, and rails weighing from ninety to one hundred pounds a yard, said rails to measure from thirty to thirty three feet in length."

ment free for trial, with references from your own locality if requested. Immediate relief and permanent cure assured. Send no money, but tell others of this offer. Write today to Mrs. M. Summers, Box 2, Notre Dame, Ind.

THE HERALD, \$1.00 PER YEAR.

THE ELKS WILL BUILD

Decide to Have New Home of Their Own—Splendid Site Purchased and the Building Will Begin.

The Elks lodge of Amarillo are a progressive lot of people, as well as a body of the most representative citizens of the place, and a social set of people.

Last Friday was the regular meeting of the local lodge and the meeting was largely attended. Three new members were given the mysterious and impressive work of the Elks' initiation and after the regular work of the meeting had been transacted the members adjourned to the Elks' cafe, where a bountiful repast was served and highly enjoyed by all present.

Since the burning of the building in which the Elks had their lodge rooms, the lodge has had no home of their own, but have been holding meetings in some other lodge room, but they have decided soon to have a home of their own, as most of the lodges of this order have done throughout the country and at the Friday night's meeting they made a substantial move in this direction.

By unanimous vote it was decided to purchase lots east of the court house for \$6,000 and to erect there on at some future date, a fine home of their own.

The Daily Panhandle is pleased to make this announcement to the public, as it shows the progressive spirit of the Elks of Amarillo and the abiding faith of the members of the order here, who are all representative citizens in the future of Amarillo.

New Members of the Popular Order to Be Initiated.
The Order of the Mystic Shriners will meet in Amarillo Nov. 30, for the purpose of taking in a class of 23 members. The meeting will be held in the skating rink and after the initiation ceremonies, a banquet will be held at the Amarillo hotel, where a fine spread will be laid for the local and visiting Shriners and the new members who will be initiated into the mysteries of the Shrine on that evening.

Delta Temple of Dallas, will have charge of the work of initiation and a large number of shivers from India Temple, Oklahoma City, will be present to participate in the exercises, and a fine time is anticipated, as the Shriners are noted for being one of the most jolly orders on earth.

Had a Close Call.

"A dangerous surgical operation, involving the removal of a malignant ulcer, as large as my hand, from my daughter's hip, was prevented by the application of Bucklen's Arnica salve," says A. C. Stichel, of Milwaukie, W. Va. "Persistent use of the salve completely cured it." Cures Cuts, Burns and Injuries. 25c at L. O. Thompson & Bro's, druggists.

PANHANDLE BEEF

William Penn Anderson Tells of the Superiority of the Cattle of This Section—Nelson's Sale.

W. P. Anderson, special livestock agent of the Pecos Valley lines of the Santa Fe railway whose specialty has been the promotion of the fine stock interests of the Panhandle and trade between our fine stock farmers and eat feeders of the western states, came in Saturday morning from a lengthy trip east in their interest. In the aggregate there has been 30,000 Panhandle calves and young steers sold at public sale during the current season at good prices 10,000 of these passing under the hammer last week at Tallulo, Decatur and Kankakee, Ill., and Elmore, Ohio, where O. H. Nelson held a successful sale of calves, etc., chiefly from the Amarillo group. All of these cattle keep their identity from place of birth to final consumption and it is this feature of trade that has made the small Panhandle stock farmer both prosperous and famous. These public sales do not include what have been purchased and distributed by such buyers as Dan Black of Ohio, Messrs. Key and Vorhees and others in Ohio and Indiana and what have been shipped to and from the different market centers.

While the bulk of this "baby beef" making is east of the Mississippi, Kansas is getting in line. Sam Means of Howard, Kan., and

Great happiness came into the home of S. C. Blair, school superintendent, at St. Albans, W. Va., when his little daughter was restored from the dreadful complaint he names. He says: "My little daughter had St. Vitus Dance, which yielded to no treatment but grew steadily worse until as a last resort we tried Electric Bitters; and I rejoice to say, three bottles effected a complete cure." Quick sure cure for nervous complaints, general debility, female weaknesses, impoverished blood and malaria. Guaranteed by L. O. Thompson & Bro's, drug store. Price 50c.

bunch of yearlings raised near Canadian, Texas, which sold at Kansas City Wednesday, weighing 1,201 lbs. and selling at \$5.40, netting the food or after all expenses including interest, feed, etc., about \$20 per head. The Crocker Brothers of Bazaar, Kan., have put on feed 300 head of the right kind of calves this winter out of which winners may be selected for next years cattle show.

PERSONAL MENTION.

(From Saturday's Daily Panhandle.)

C. R. Slay of Groom is in the city today on business.

Nickie Coble of Miami is in the city today visiting relatives.

C. R. Slay, a prominent merchant of Groom is in the city today on business.

E. E. Peoples, manager at David son's, is confined to his home today by sickness.

W. M. Ferguson, a prominent stockman of Wellington, Kan., is looking up cattle business in Amarillo today.

C. P. Coble returned home this morning from Miami where he has been for the past week at Coble Brothers ranch.

Governor Browning returned from Corpus Christi yesterday with Mrs. Browning whose condition seems considerably improved.

Rev. E. D. Aldridge has returned from Dallas but is making preparations to move there where he has accepted the pastorate of one of the churches.

J. B. Farris of Nanticoke, Ill., who has been in the city visiting Hall and Frederick, the attorney, left last night for Cumby, Texas and other points south.

Attorney W. R. Gibson of Claude, has been a visitor in Amarillo the past few days. Mr. Gibson is strongly inclined to remove to the metropolis of the Panhandle.

E. F. Chadwick of Roswell, N. M., who is opening up a new addition to Summerfield of 300 town lots was in the city yesterday and made The Daily Panhandle a business call.

Ben Hurst of St. Louis and former resident of this city in '89, is in the city for a few days looking up old acquaintances and business affairs. Mr. Hurst, remarked at the great changes that have taken place in a comparatively few years.

County Attorney Hugh Humphreys has assumed the duties of his office. His predecessor, Attorney Gowin, leaves an excellent record behind him and the Daily Panhandle feels safe in saying that Mr. Humphreys will not be derelict in the discharge of his duties.

Mr. John Landefglin, formerly of St. Louis, but now of Amarillo, is making his home with his brother, Mr. P. H. Landefglin. The Landefglin brothers are owners of some 100,000 acres of Panhandle land and it goes without saying that they have faith in the future of this country. They are genial gentlemen whom it is a pleasure to meet.

Mr. H. C. Nobles is in Indianapolis attending the first annual meeting of the Presbyterian Brotherhood of the Presbyterian church in the United States. The program of the first meeting has on it such men as Grover Cleveland, William Jennings Bryan, Ralph Connor, the author of "Sky Pilot" and other eminent lay men and divines.

Hon. A. J. Heather and wife of Kansas City, have been visitors in Amarillo for some time. Mr. Heather is a lecturer and ineffectually has a war record having served in the army of Cuba. He is a most entertaining gentleman and the lobby of the Amarillo is never dull when he is in it. Mr. Heather shows his good judgment by taking interest in Panhandle lands.

C. D. Jones and wife of Tuscola, Ill., left yesterday for their home after a visit to their farm in Hale county. Mr. Jones has owned property in Hale county for nineteen years and is one of the most enthusiastic Panhandle talkers that can be found. His property since the purchase has increased in value enormously and should he dispose of his holdings today he would be thousands of dollars to the good.

Walter Farwell and W. H. Gray, of Farwell, were guests at the Amarillo Thursday evening, on their way to Channing. They report the new town on the state line in flourishing condition. Among the buildings under construction and in contemplation are a brick business block, an ice plant and a \$25,000 hotel. Thus the Panhandle towns are growing and flourishing every where and this is but a beginning.
